

SGA Resolution No. 5-06-F

A Resolution to provide better literature and signage, including maps and general information, concerning the MTSU Raider Express bus system, as well as information for transportation services, on the campus of MTSU in order to improve student awareness and utilization of these services.

Whereas: The expansion and growth of MTSU requires continually improving, evolving, and expanding transportation services,

Whereas: Due to the expansion of the school and growth of the student body, additional parking lots will reportedly continue to be constructed, but in more remote locations,

Whereas: The Raider Express will imminently become a much more needed and relied upon means of campus transportation for an increasing number of students,

Whereas: As of today, there is no convenient signage displaying the routes of the raider express or other bus transportation information,

Whereas: 98% of student's surveyed believe they would be more likely to ride the Raider Express if they could review the routes at the bus stops or other convenient areas on campus,

Whereas: The Raider Express transportation system is funded by student's tuition via a parking and transportation fee,

Whereas: Transportation service information should be made more readily available and convenient to students in order to encourage better parking and traffic conditions on campus,

THEREFORE, LET IT BE RESOLVED BY THE 69TH SGA CONGRESS OF THE STUDENT GOVERNMENT ASSOCIATION OF MTSU THAT:

Section 1: A large sign, possibly interchangeable to account for changes to the routes, be placed at each and every campus Raider Express bus stop and also at high traffic areas around campus such as the KUC.

Section 2: These signs should include a map of campus displaying each bus route and stop, basic information concerning the bus transportation system, phone numbers listed for more information pertaining to campus parking and transportation services, and a box stocked with leaflets including this information that students may take with them.

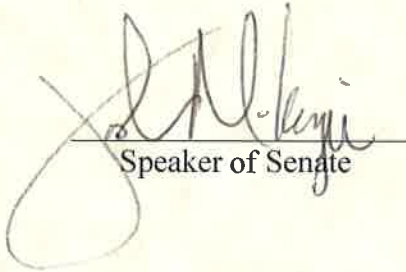

Section 3: Transportation information leaflets should also be made available on the Raider Express busses.

SGA Resolution No. 5-06-F

Section 4: The information found in the leaflets should also be included in the MTSU student planners.
