

Resolution 5-10-S

A resolution to suggest that a parking citation email system be created to better inform students that they have received a parking citation.

Whereas: Middle Tennessee State University Parking and Transportation Services leaves only an envelope on windshield of vehicles with parking citations;

Whereas: Some students may not be aware that they have received a parking citation because the parking citation was not on their vehicle when they returned

Whereas: Students may not be aware of receiving numerous tickets at a time;

Whereas: Students records and assets on pipeline cannot be accessed when there is a charge on their account;

Therefore, let it be resolved by the 72nd Congress of the Student Government Association of Middle Tennessee State University that:

Section 1: Parking Services will work with the Business Office and Information Technology to develop a system that will automatically send an e-mail to the students MTSU e-mail account upon receiving a ticket or citation on campus;

Section 2: The email will contain the citation number, time and place of offense, and the amount of the ticket.

Section 3: Request that, if possible, the system be sending e-mails by Fall 2010.

Sponsored by: Senator Hardy
