| Family Studies Minor<br>Effective Fall 2020   | Change to curriculum of existing major (including concentrations), minor, or certificate | Family studies is a current minor of 15 hours in Sociology and Anthropology. We are streamlining and improving course options for the minor. We have deleted two courses, and added two options that better align with current research and support for students practical experiences. We want to delete SW 4150 to avoid issue with all topics courses being accepted for minor. Delete CDFS 4350 because it has multiple prerequisites that most students do not have. Add SOC 4800 Special Projects and SOC 4900 Internship to allow options for experiential credit. There is no academic map for minor as far as I can see. Upper div forms don't have the minor listed. | <b>5</b> |
